[illegible]

A cross-sectional view of a device assembly. A central cavity is defined by a thick bottom wall (18) and side walls (25). The top of the cavity is closed by a thin layer (100) which is part of a larger top assembly (102). This top assembly includes a thin layer (104) and a thicker layer (101) above it. A central opening in the top assembly is defined by a thick layer (103) and a thin layer (105). An upward-pointing arrow is shown within this central opening. The entire assembly is supported by a base (2). A curved line (31) is shown at the bottom left, and a curved line (108) is shown on the left side of the cavity. A bracket (109) is shown on the right side of the top assembly, and a bracket (30) is shown on the left side of the top assembly.
